

a land in motion pdf

Vertical land motion due to sediment compaction can produce rates of local sea level rise that are 2-3 times larger than global mean sea-level rise. A third source of vertical land motion is the past and present melting of ice sheets and glaciers.

How does land motion influence sea level rise?

Projectile Motion "Treating the vertical motion independently of the horizontal motion, and then combining them to find the trajectory, is the secret. # A horizontal glide combines with a vertical plunge to produce a graceful curve. # The downward gravitational acceleration behaves the same as for any falling object.

Chapter 3 Falling Objects and Projectile Motion
