Social Learning/Social Cognitive Theory Social learning theory (Bandura 1977b), later re-named social cognitive theory (Bandura 1986), proposes that behavior change is affected by environ- ... physical activity, social support is frequently used. Understanding and Promoting Physical Activity.

HAPTER 6 UNDERSTANDING AND PROMOTING PHYSICAL ACTIVITY

Activity Theory uses the whole work activity as the unit of analysis, where the activity is broken into the analytical components of subject, tool and object, where the subject is the person being studied, the object is the intended activity, and the tool is the mediating device by which the action is executed (Hasan, 1998).

Activity theory: a framework for qualitative analysis

In activity theory the unit of analysis is an activity. Leont'ev, one of the chief architects of activity theory, describes an activity as being composed of subject, object, actions, and operations (1974).

Studying Context: A Comparison of Activity Theory

The International Social Theory Consortium is a grouping of teaching and research programs in social theory across the world. It is concerned with new developments in social theory as an inter-disciplinary and post-disciplinary activity which transcends the usual divisions between the social science and the humanities.
