Rubik's Cube solution with advanced Fridrich (CFOP) method. The first speedcubing World championship was held in 1982 in Budapest and it was won by Minh Thai (USA) with a 22.95 seconds solution time. Since then the methods have evolved and we are capable of reaching solution times below 6 seconds.

using the fundamental methods. Among them are the force and displacement methods (both methods are presented in canonical form), as well as the mixed method. Also the influence line method (on the basis of force and displacement methods) is presented. Analysis of continuous beams, arches, trusses, and frames is considered in detail.
