models, and encourages their use in research on decision-making in sports. In addition, Appendix A provides the sufficient detail to formulate, simulate, and compute predictions for one of these models.

### **Cognitive modeling of decision making in sports**

The pyramid structure is the essence of the European Sport Model and a legacy of European sports history. The model applies for all sports in Europe. The pyramid is formed with elite professional football at the top and an infinitely greater number of amateur clubs and volunteers at the base (57).

### **Pyramid or democracy in sports? Alternative ways in**

four types of alternative assessment that might meet the needs of vocational educators and summarizes assessments in use in the cases selected for our study. The chapter concludes with a brief discussion of the advantages and disadvantages of different types of assessment.
